A live review edition awaiting Maria Smith's final-publication approval.

Last time, Mia, Sol and Tavi fixed the turning-light trail. Its light shone through the Sunrise Arch. The friends followed it and found a closed garden gate.

"Where does the trail lead next?" asked Tavi.

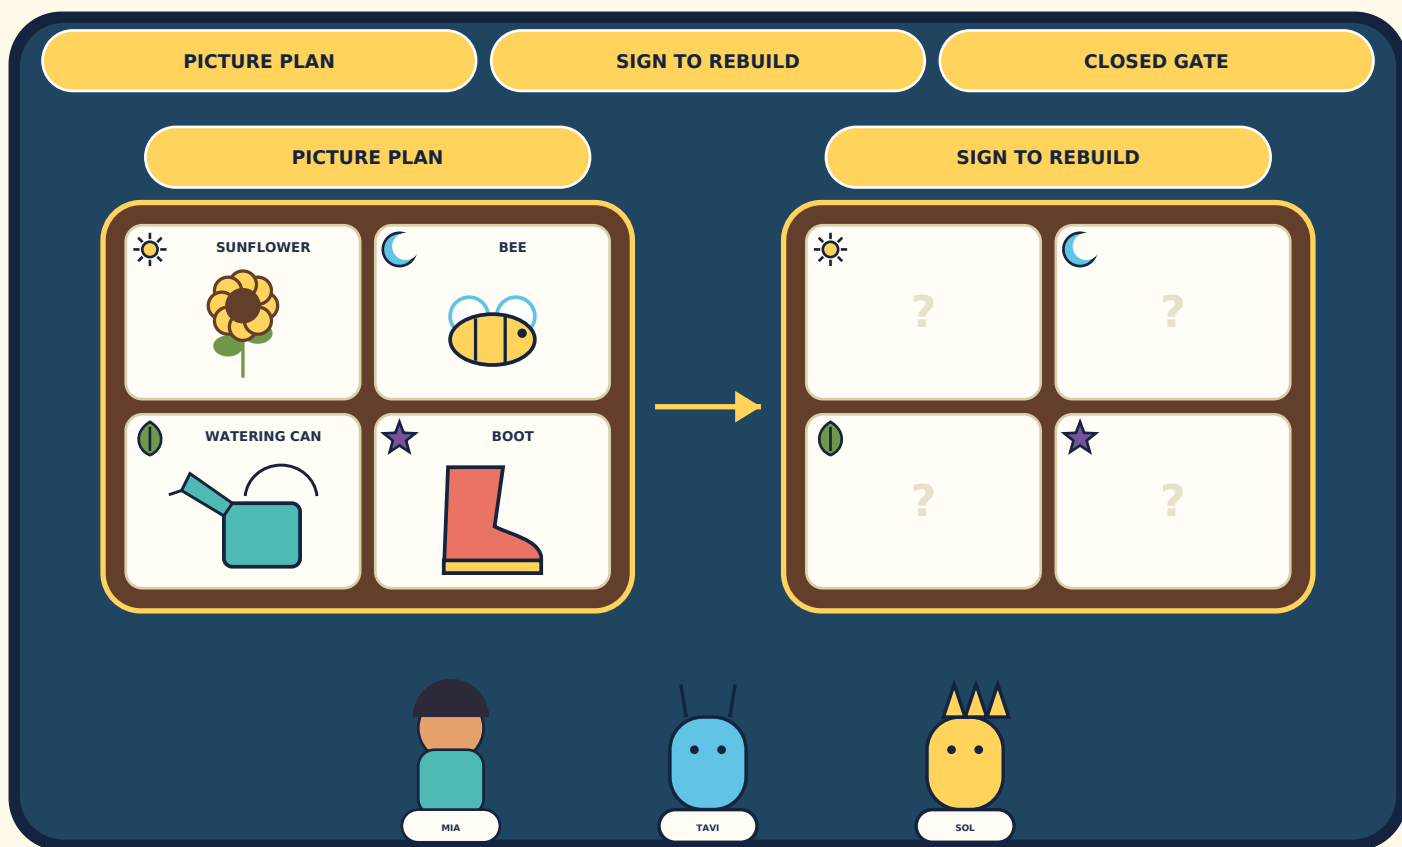

You can help the friends find out.

A blank welcome sign stood beside the gate. A picture plan showed where its four pictures belonged.

"The gate needs its sign before the visitors come," said Mia. "Let's make it match the plan, then check it."

Your mission: finish and check the sign before the morning visitors arrive.

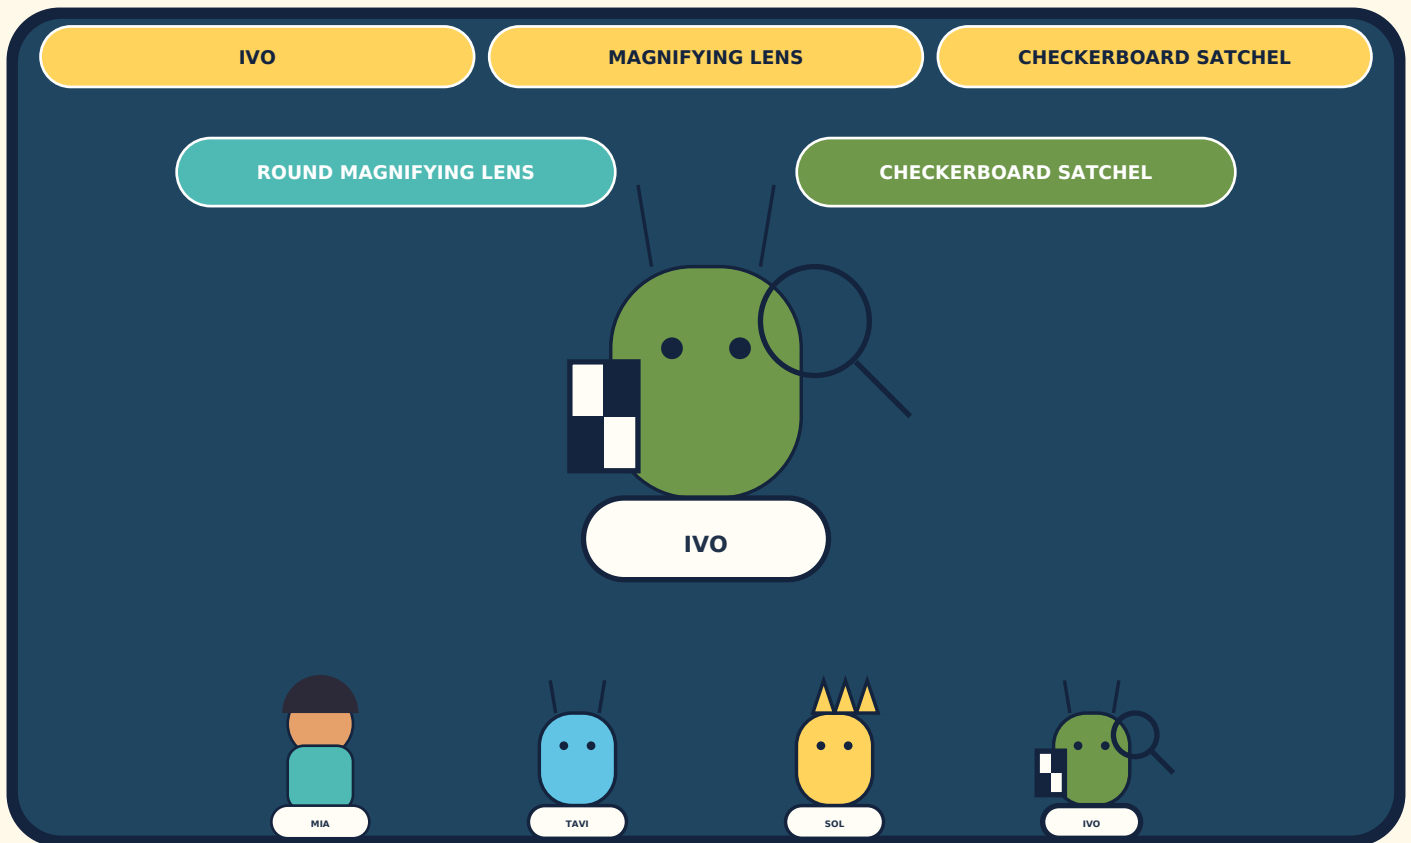

MEET IVO

A small moss-green friend hurried from the garden. He carried a round magnifying lens and a checkerboard satchel.

"Hello! I'm Ivo. I help check things carefully. Let's look again together."

Ivo joins Mia, Sol and Tavi to solve the welcome-sign problem.

1 - LOOK BEFORE YOU GUESS

Ivo put the picture plan where everyone could see it. Each space had a symbol in one corner and a picture inside.

"Let's look closely before we answer," said Mia.

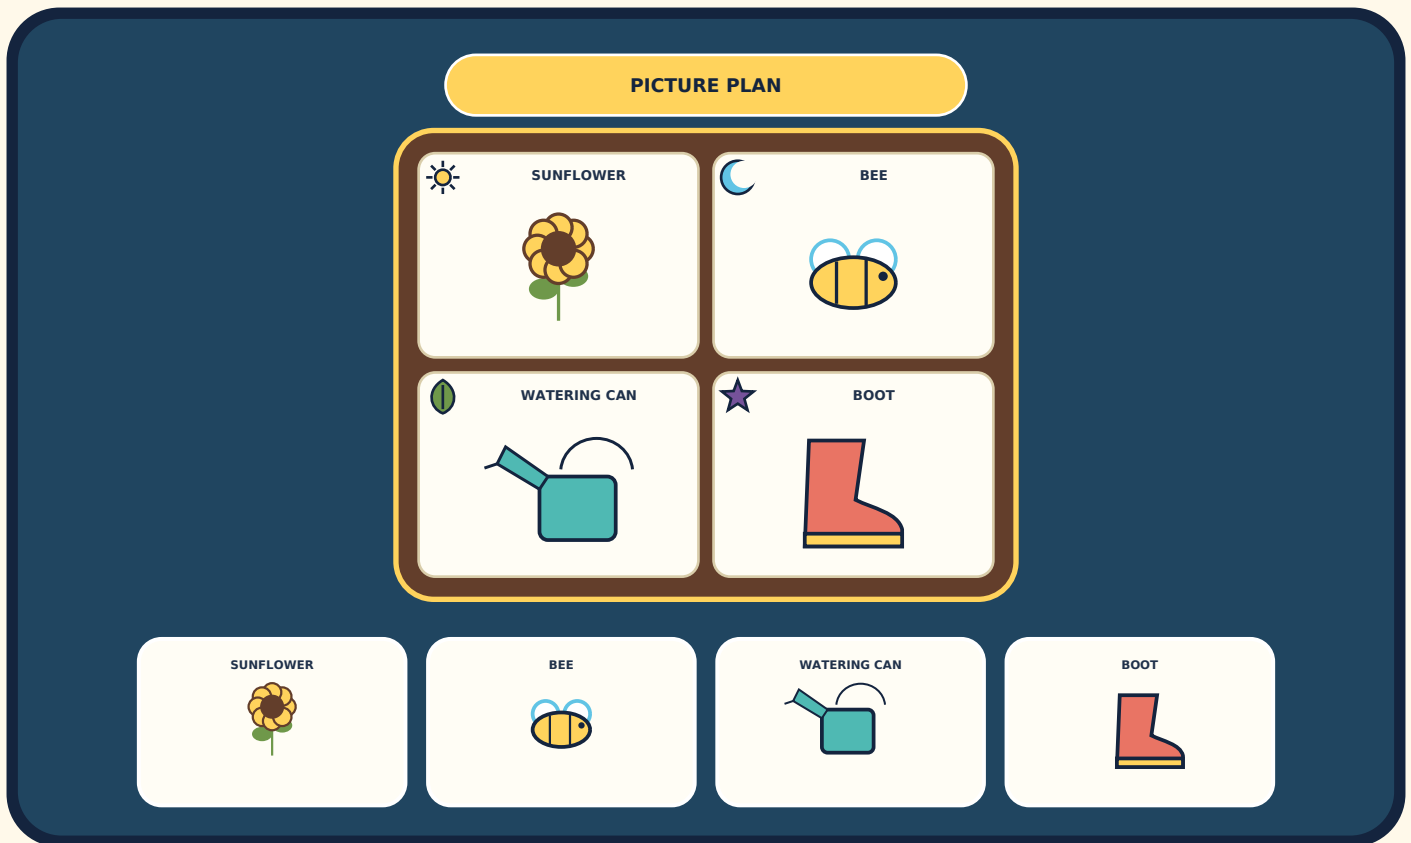

First find the moon symbol. Then look at the picture beside it.

Look at the picture plan.

Find the space with the MOON in its corner. Which picture is inside that space? Point before you turn the page.

Use what you can see on the plan.

The **BEE** is in the space with the **MOON**.

You looked before you answered. Saying what you saw is called an **OBSERVATION**. Choosing without looking would be a **GUESS**.

Now the team knows what belongs in the moon space. Find the optional picture code.

LOOKCLOSE

Ivo opened his satchel. Inside were four picture cards and one blank wooden sign.

The picture plan stayed standing. The friends could look at it whenever they needed.

They will copy what they can see, one picture at a time.

Choose one card. Find the same picture on the plan. Put the card in the sign space with the same corner symbol.

Use all four cards once. Fill all four spaces.

Look back at the plan after every move.

BOOT

THE FIRST SIGN IS BUILT

**SUNFLOWER is with SUN. BEE is with MOON.
WATERING CAN is with LEAF. BOOT is with STAR.**

**All four pictures are in the same places as the
picture plan.**

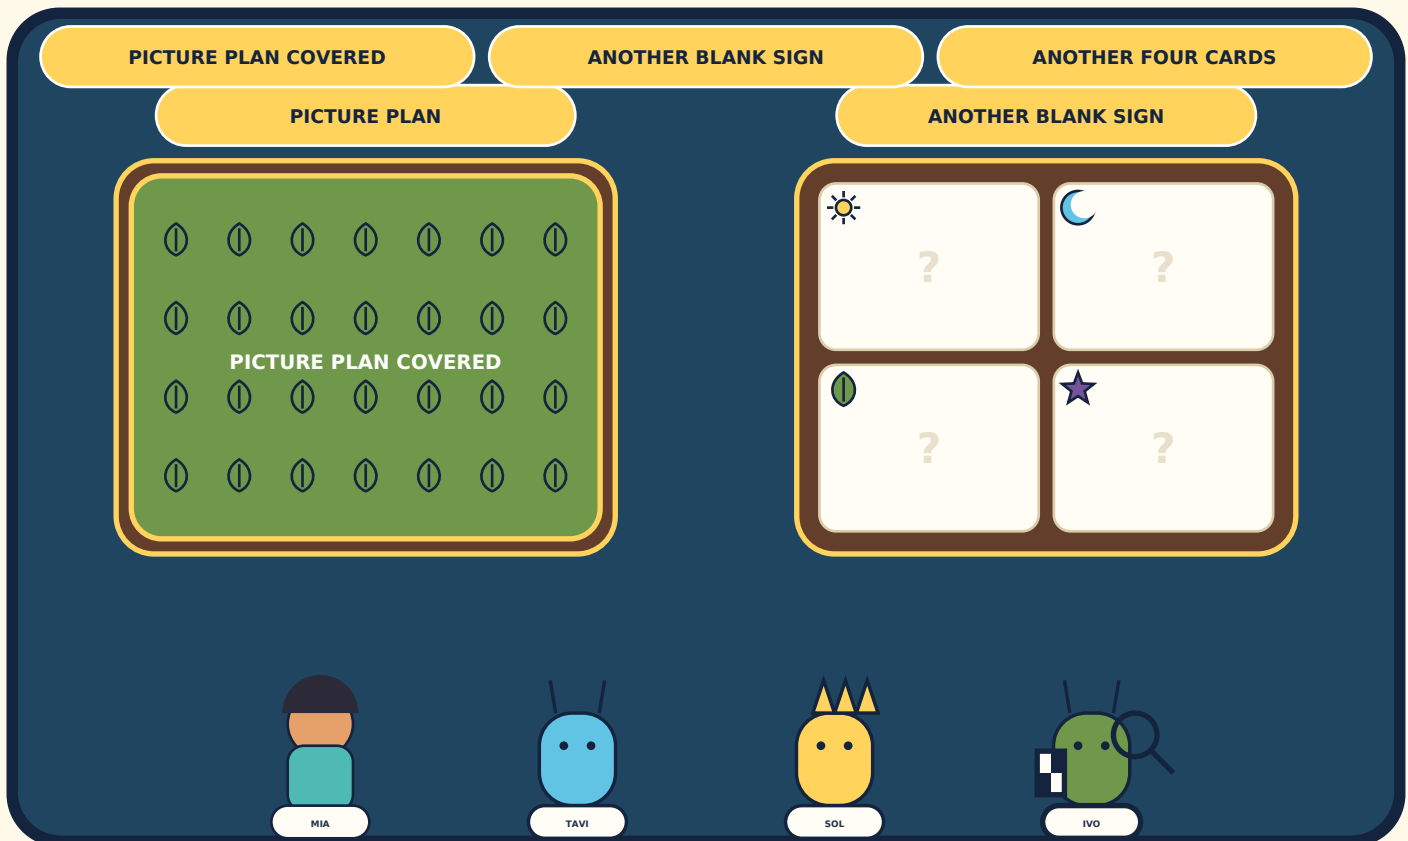

The team built a complete sign while the plan was visible. Find the optional picture code.

Ivo closed a leafy curtain over the picture plan and the finished sign. Then he set down another blank sign and another four cards.

"Let's rebuild it from memory," said Tavi.

The plan is still behind the curtain. They can open it when they are ready to check.

TRY IT - THE MEMORY REBUILD

Sol placed the pictures one at a time. Ivo kept one card showing each move. Sol's finished try was:

SUNFLOWER at SUN. BOOT at MOON. WATERING CAN at LEAF. BEE at STAR.

Does it MATCH, DOES NOT MATCH, or are you NOT SURE?

All three are honest choices while the plan is hidden. Turn the page to check.

MATCH

DOES NOT MATCH

NOT SURE

Ivo opened the curtain. Sol's sign did NOT MATCH.
BEE and BOOT had swapped places.

The friends kept Sol's sign beside the plan. "This try can help us see what to fix," said Mia.

A try that does not match can still help. Find the optional picture code.

SPOTCHANGE

5 - FOLLOW SOL'S STEPS

While Sol rebuilt the sign, Ivo kept one card for each picture Sol placed. Now he hung the four cards from first to last.

"These cards let us follow exactly what Sol did," said Ivo.

These four step cards show what Sol did first, next and last.

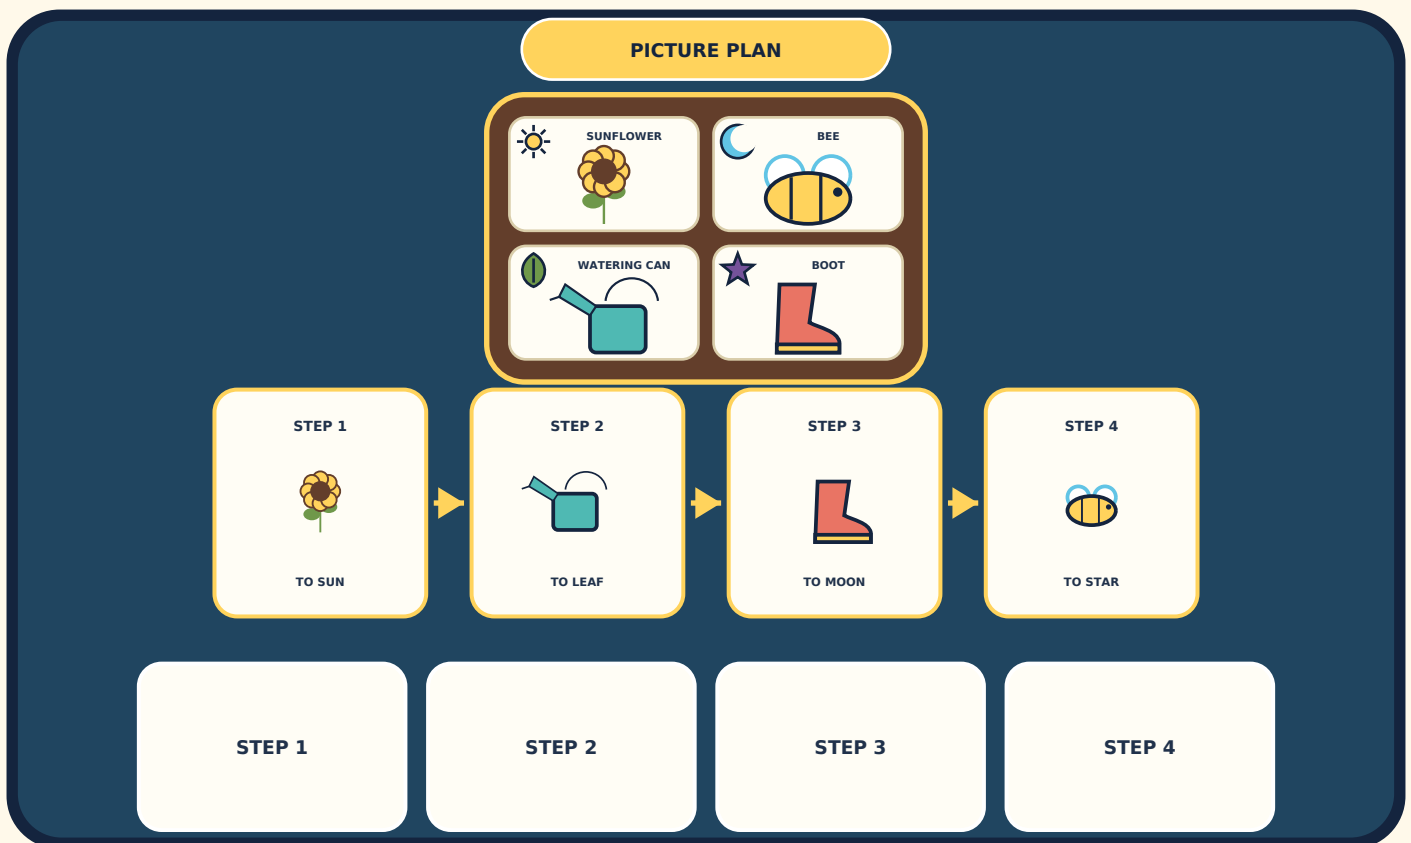

TRY IT - FIND THE FIRST CHANGED STEP

Start at STEP 1. For each card, find the same picture on the plan. Did Sol put it beside the same symbol?

Which is the first step that is different?

Check the cards in order. Do not skip ahead.

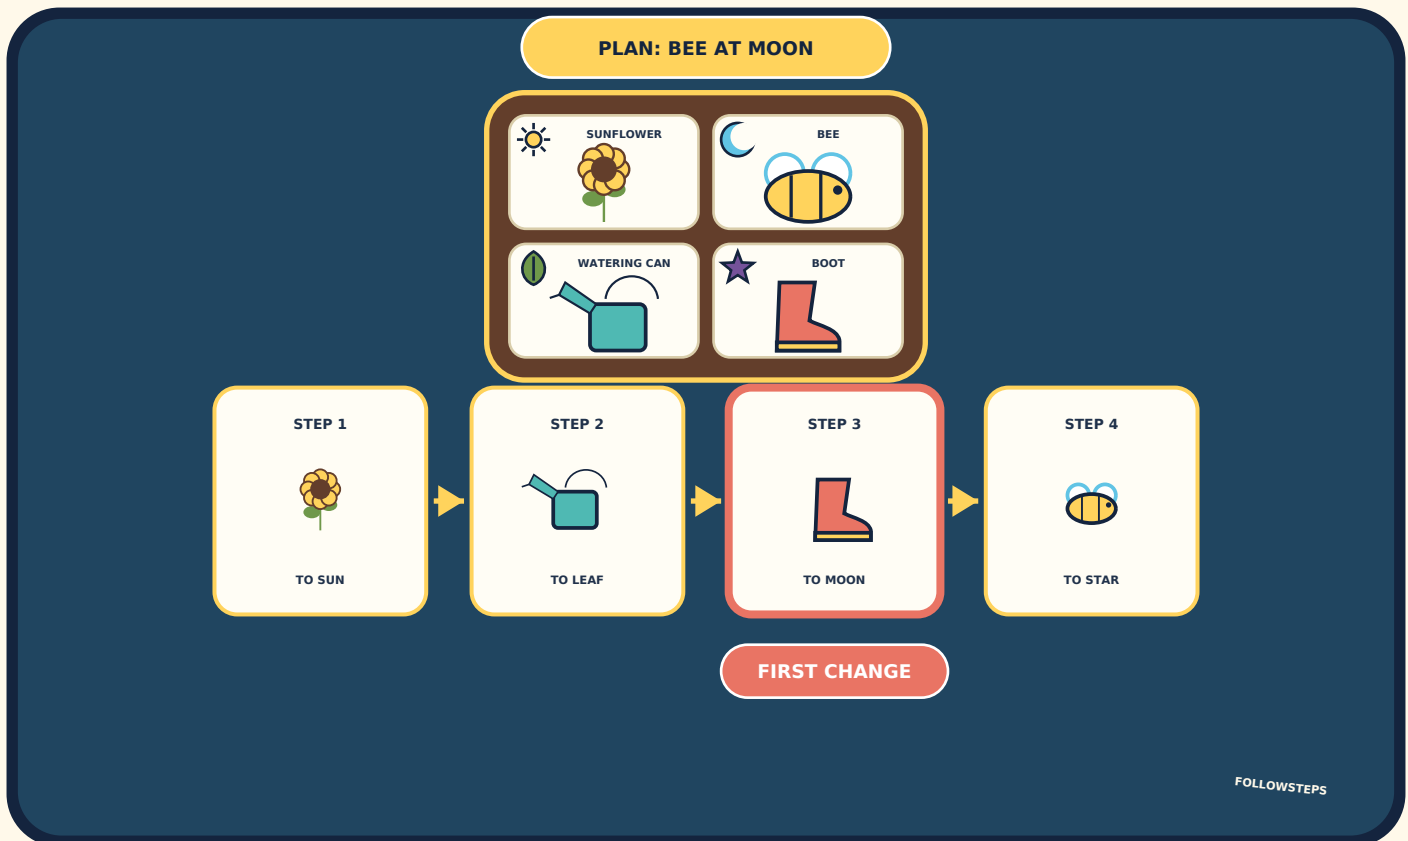

STEP 3 IS THE FIRST CHANGE

STEP 3 put BOOT beside MOON. But the picture plan shows BEE beside MOON. STEP 4 then put BEE beside STAR.

STEP 3 is where the mix-up began.

The step cards helped the friends find the first move to fix. Find the optional picture code.

**After BEE and BOOT were fixed, the sign matched the plan.
Now it had to fit between two hooks.**

Ivo placed a ribbon from the left side to the right side. "This distance is called WIDTH. Let's see if the sign fits side to side."

This ribbon checks width. It does not check the pictures or how tall the sign is.

TRY IT - CHECK THE WIDTH

Look at the left and right edges. They reach the two green marks showing the space between the hooks.

Is the sign the right width? Choose **FITS** or **TOO WIDE**.

Use the side-to-side marks to answer.

The diagram shows a sign with a yellow header labeled "REPAIRED SIGN". Below the header is a brown-bordered box containing four white squares, each with an icon and a label: a sunflower labeled "SUNFLOWER", a bee labeled "BEE", a watering can labeled "WATERING CAN", and a red boot labeled "BOOT". Below the sign box is a horizontal teal line with vertical end caps, labeled "SIDE TO SIDE - WIDTH". At the bottom are two white buttons: "FITS" and "TOO WIDE".

THE WIDTH FITS

The sign **FITS** between the hooks from side to side.

The width ribbon answered one question: "Does the width fit?" It did not check the pictures or how tall the sign is.

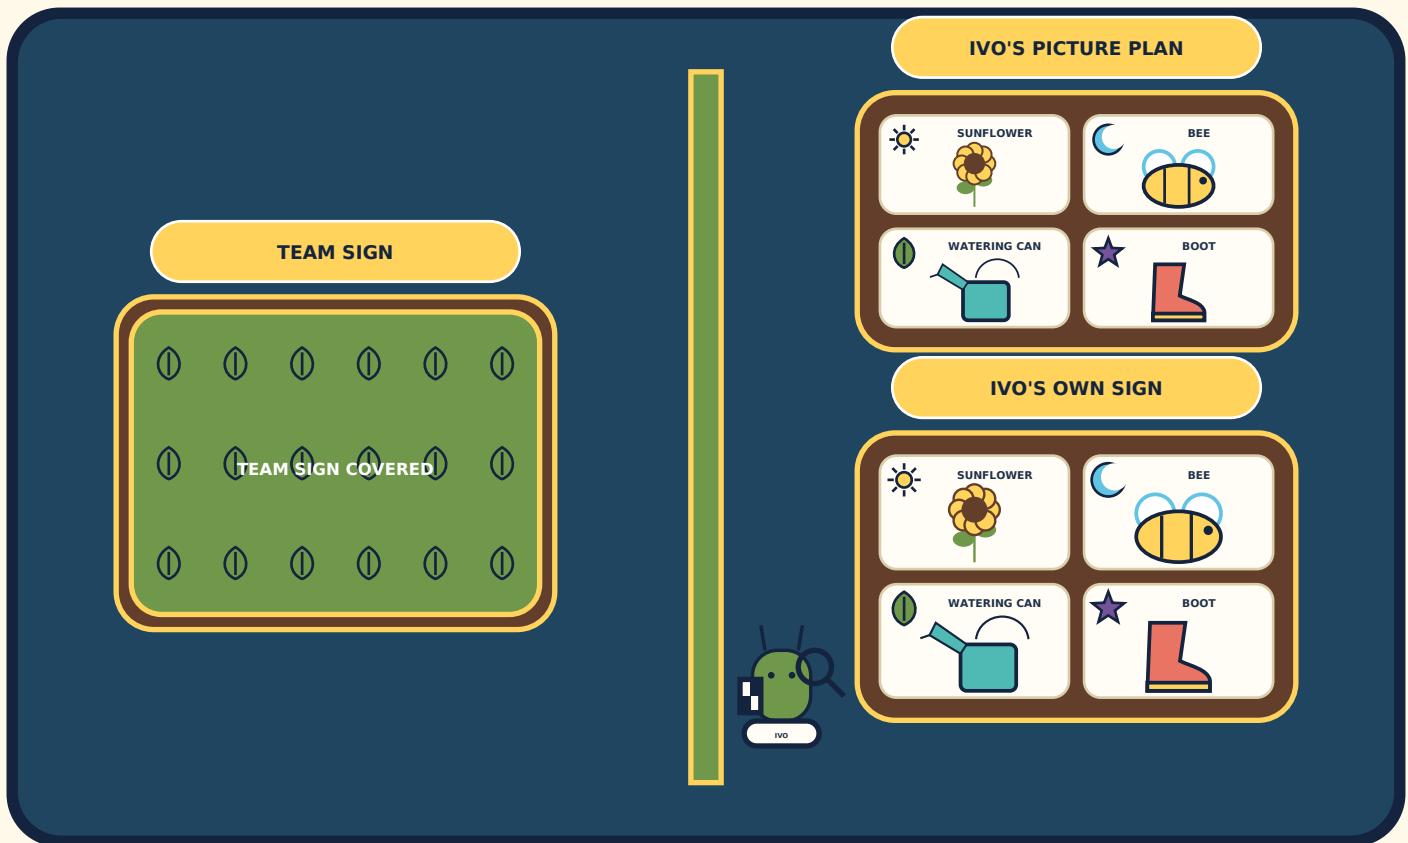

One tool can answer one clear question. Find the optional picture code.

Mia, Sol and Tavi covered their finished sign. On the other side of the hedge, Ivo used the same picture plan, his own blank board and his own cards.

He made a sign without seeing theirs.

First Ivo will finish his sign. Then everyone will compare.

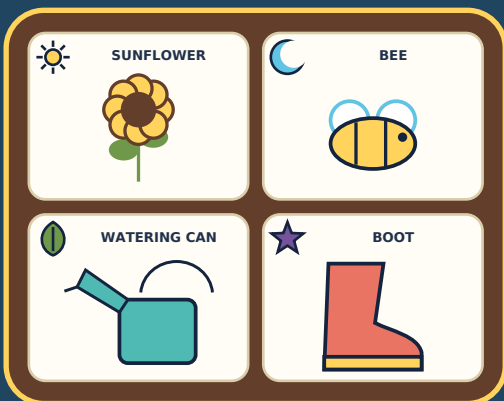

Now uncover both signs. Look at each symbol space.

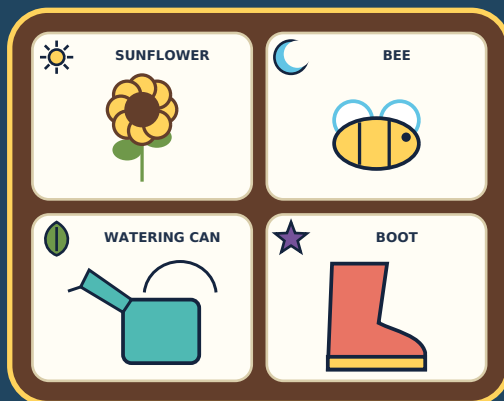

Are all four pictures in the same places? Choose SAME or DIFFERENT.

Check all four spaces before you answer.

DIFFERENT

IVO'S CHECK CONFIRMS THE PICTURES

All four pictures are in the same places. Ivo made his own sign without copying, and it matched.

When a new check gives the same result, we say it **CONFIRMS the answer.**

A check made without copying is called an independent check. Sol's earlier try still stays with the team. Find the optional picture code.

8 - WHAT HAVE WE NOT CHECKED?

"The width fits, so we're done!" said Mia.

Ivo pointed to the bottom and top. "Wait. We checked side to side, but not bottom to top."

What should the team do now: guess, ask everyone to vote, or measure bottom to top?

A vote tells which choice people prefer. It does not measure the sign.

The interface consists of the following elements:

- MIA: WIDTH FITS. ARE WE DONE?** (Purple button)
- IVO: WHAT ABOUT BOTTOM TO TOP?** (Green button)
- WIDTH: FITS** (Dark green button)
- REPAIRED SIGN** (Yellow button)
- Central Grid:** A 2x2 grid of icons in a brown frame:
 - SUNFLOWER:** Sun icon and a yellow flower.
 - BEE:** Moon icon and a yellow and black bee.
 - WATERING CAN:** Leaf icon and a blue watering can.
 - BOOT:** Star icon and a red boot.
- Bottom Buttons:** Three white buttons labeled **GUESS**, **VOTE**, and **MEASURE BOTTOM TO TOP**.

THEY CHECKED BOTTOM TO TOP

The team used a second ribbon from the bottom to the top. That distance is called **HEIGHT**.

The sign reached the two green height marks. Its height fits too.

Ivo's words alone were not the answer. Measuring gave the team the answer. Sometimes a difference of opinion shows what to check next. Find the optional picture code.

MEASURING ANSWERED THE QUESTION

MOREWORK

Before opening the gate, the friends stopped for four last questions:

Do the pictures match the plan? Does the sign fit side to side? Does it fit bottom to top? Did Ivo's own sign match?

They kept one card from each check. A kept card that shows what happened is called a **RECORD**.

GATE OPEN

ALLCHECKED

YOU LEARNED HOW TO CHECK

You looked at a plan, built a sign and kept Sol's first try. The step cards showed where the mix-up began. One ribbon checked width. Another checked height. Ivo made his own sign without copying.

A check can show that things match, show a difference, or show what to check next.

Checking helps us explain what we saw, find a change and know what to do next.

FOLLOW THE CARDS

CHECK TWO WAYS

IVO CHECKS TOO

THE GARDEN GATE OPENS

The morning visitors followed the checked sign into the garden. Mia, Sol, Tavi and Ivo watched them find the right path.

On the far wall, another Star Door clicked softly. The friends smiled and wondered where it led.

End of this adventure. The next one is still a mystery.
