For shared reading with a grown-up.

Mira had a BIG question.

Pip leaned closer to listen.

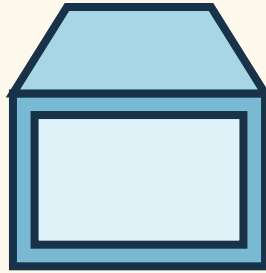

Can I find nothing?

Mira wondered where to look first.

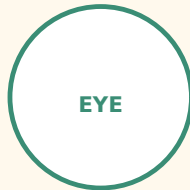

LOOK

**Mira opened a box.
There was no toy inside.**

Is this nothing?

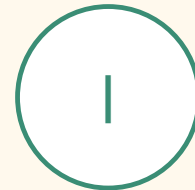

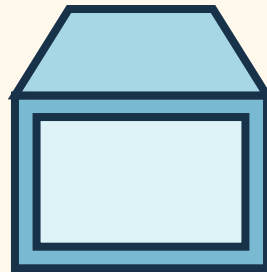

LOOKING

QUESTION

RECORD

**The box was present.
Mira was looking.
The question was happening.**

An empty box was not no presented thing.

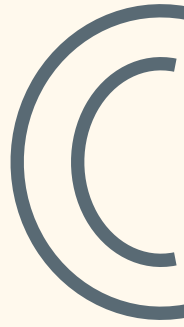

LISTENING RECORD

**Mira waited for a sound.
No one clapped.**

Is quiet nothing?

LISTENING RECORD

**Mira was listening.
The quiet could be recorded.**

Listening and recording were happening.

NOTHING

Mira wrote the word:

NOTHING

Did the word make nothing appear?

**The word was written.
The paper was present.
Mira had made a record.**

The word was not nothing.

?

**Pip asked,
'What if no one shows anything?'**

Mira thought carefully.

POINT

SAY

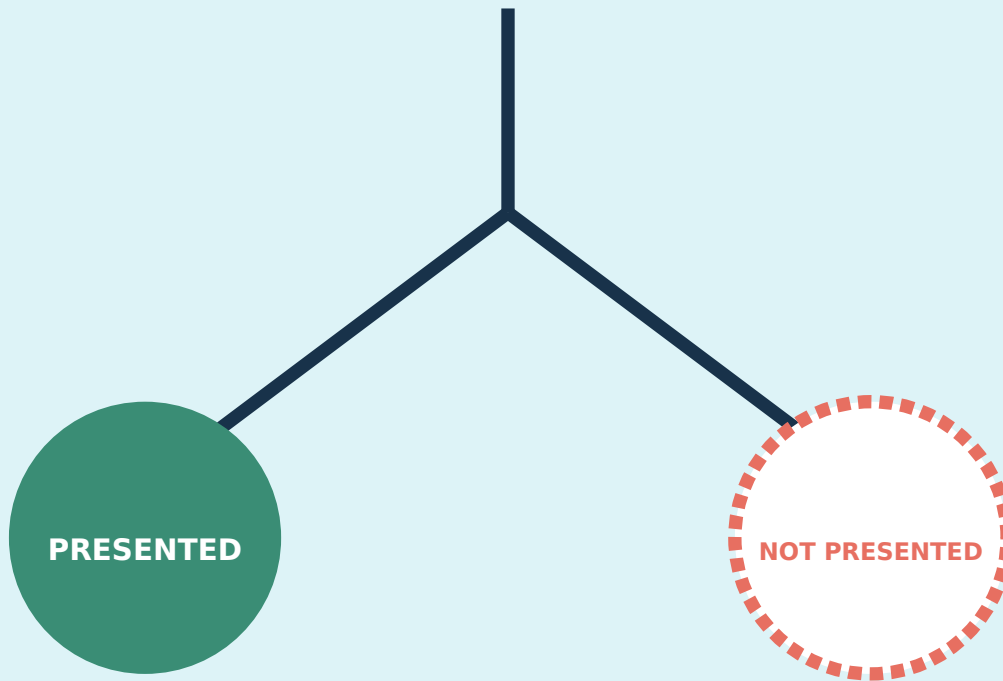

RECORD

CHECK

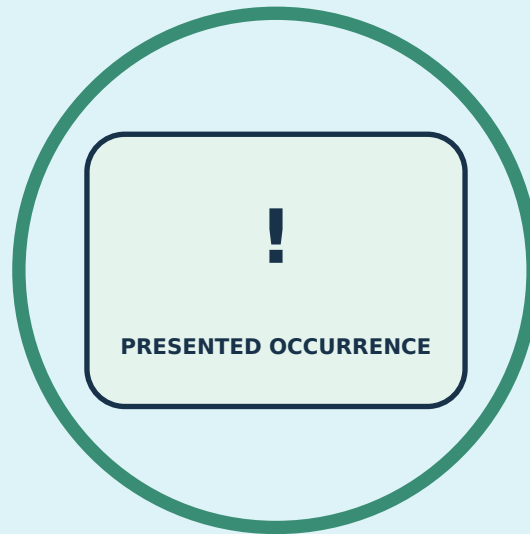

**Then there is no example
to point to, say, record or check.**

No hidden example has been supplied.

Our checking question has two paths.

An example is presented - or no example is presented.

**If an example is presented,
the presenting is happening.**

So the presented example is an occurrence - not nothing.

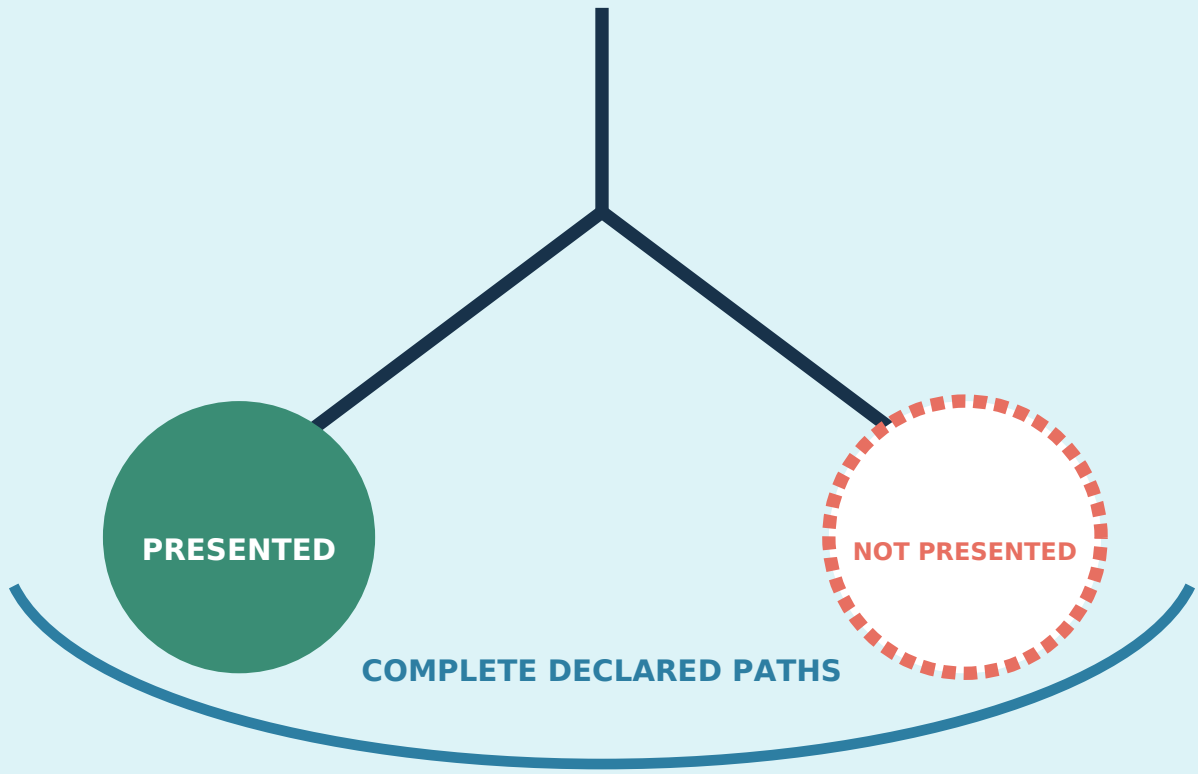

NO PRESENTED EXAMPLE

**If no example is presented,
there is no counterexample to use.**

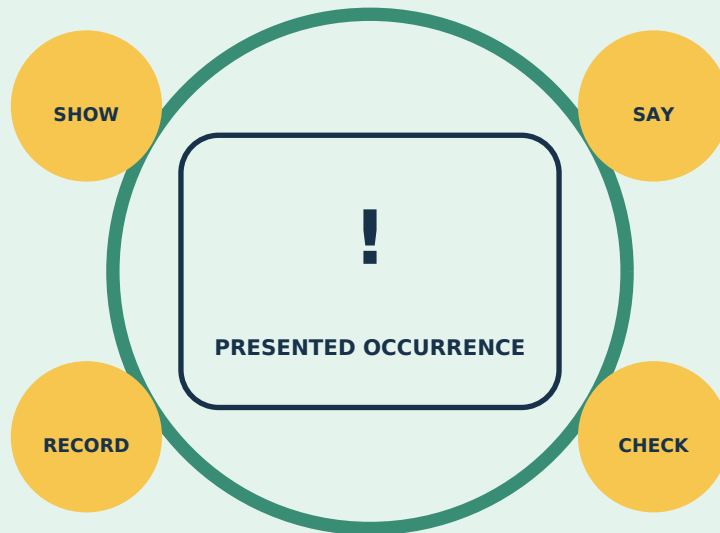

We do not pretend that a hidden example was supplied.

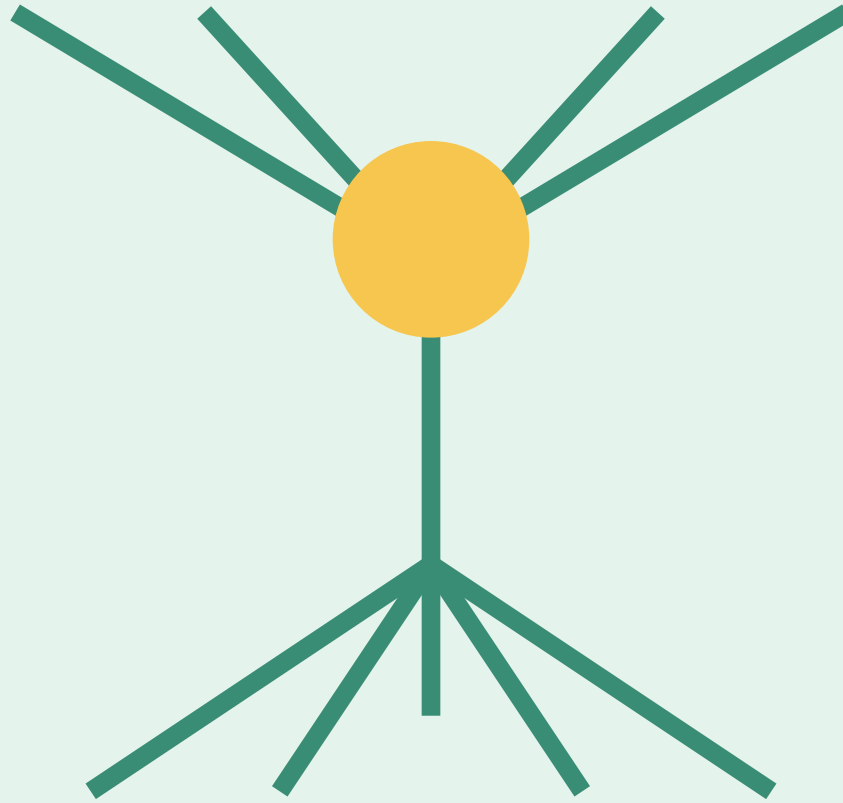

**Those are all the ways
our checking question can go.**

Presented, or not presented.

Every example we can show, say, record or check is something.

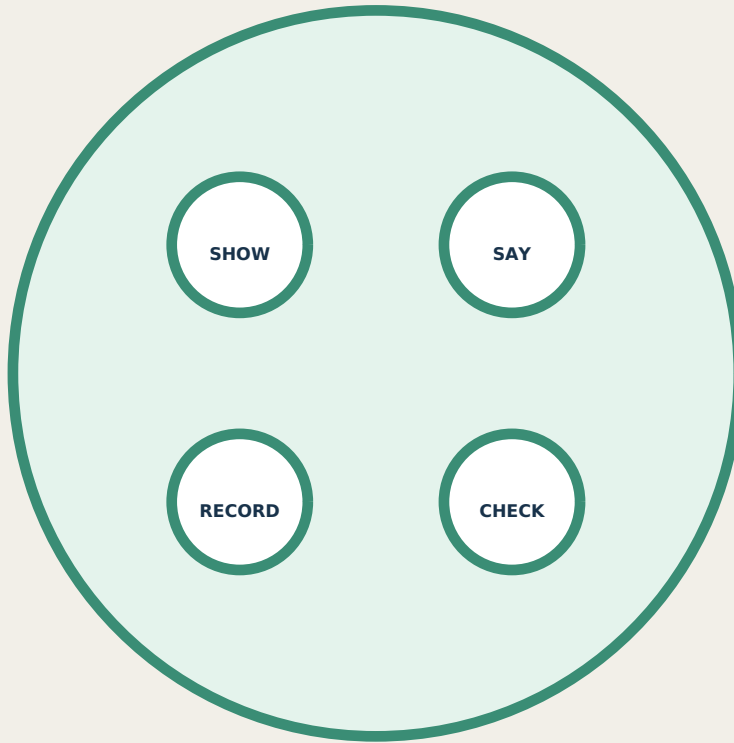

There is no presented counterexample.

There is no nothing.

This is the starting point for Smithian Fold Theory.

NO CLAIM ADDED

Our rule talks about what can be shown, said, recorded or checked.

It does not pretend to describe what no one can present at all.

CHECK TOGETHER 1

PRESENT

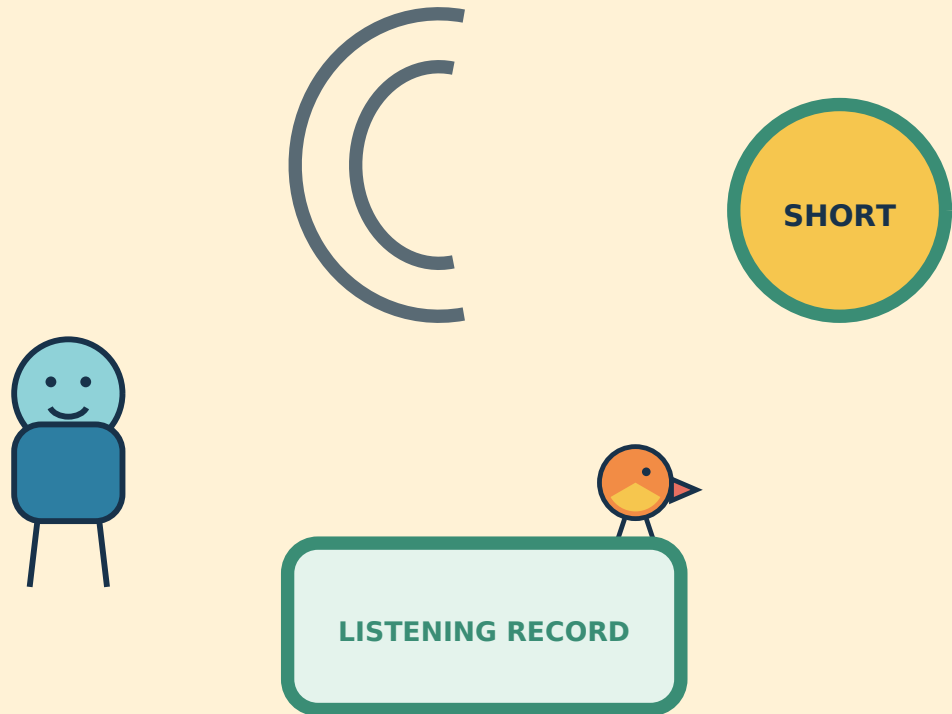

NOT INSIDE

OBSERVED

**Put an empty bowl on a table.
What is present?
What is not inside it?**

Say exactly what you can point to or observe.

**Listen for one short moment.
Did a clap happen?
Did listening happen?**

A grown-up keeps the moment short and calm.

= or !=

1

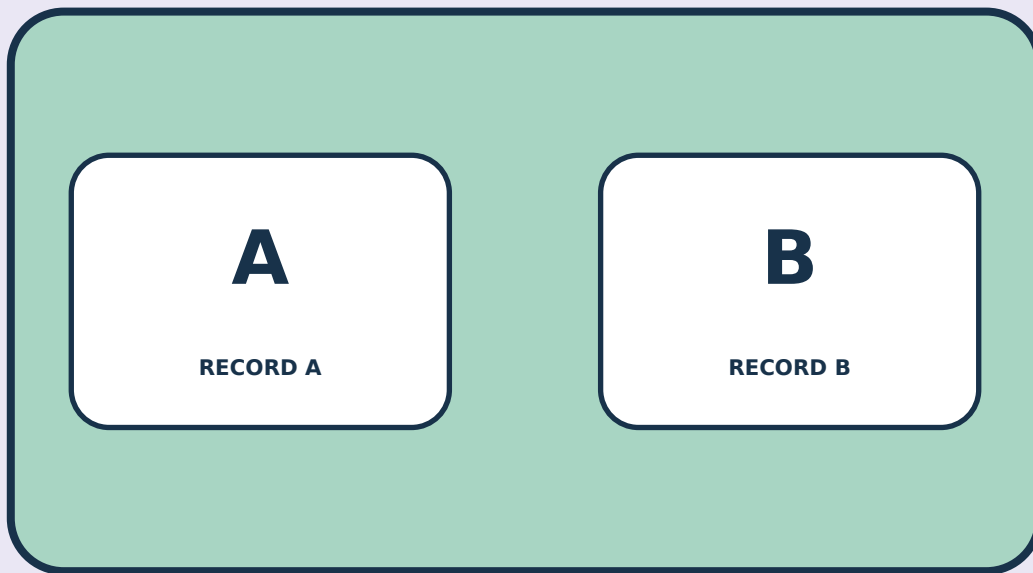

FIRST RECORD

2

SECOND CHECK

**Draw or tell what you noticed.
Ask someone else to check.**

A second check may agree or disagree.

**Keep what happened.
Do not hide a disagreement.**

Honest checks help us learn.

QUESTION

CHECK

RECORD

**Something was here:
Your question.
Your check.
Your record.**
